Course Objective

The course aims at equipping the participants with knowledge and intervention skills in working with mentally ill persons and their families. Upon completion of the course, the participants are expected to have acquired basic knowledge and skills in the following areas:-

- General concepts on signs and symptoms of mental illness, classification in psychiatry and diagnostic criteria;
- Prevalence, diagnostic criteria, psychotic medication, management and treatment approaches on people suffering from major types of mental disorders

Course Trainer

Dr. LEE Yiu Ki

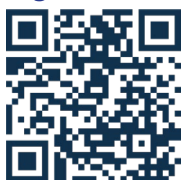

Specialist in Psychiatry

Dr. Lee Yiu Ki private practicing psychiatrist in Hong Kong and a Fellow of the Royal College of Psychiatrists in the United Kingdom.

He served as an Associate Consultant in Child and Adolescent Mental Health Services at the United Christian Hospital. In addition to his daily outpatient and inpatient work, He is dedicated to developing services for children with ADHD, adolescent day mental health rehabilitation services, and providing consultations for pediatric eating disorders.
